

Lisa Rossi

New to the Homecare team

"SIL seems a really good organisation to work for and I've found the job so rewarding".

I recently moved here from Manchester and used to work for the NHS. I heard about SIL on Sunshine radio and thought I'd give it a go!

I joined the Homecare Team who provide care at home, mostly to older people. The Homecare staff have all been so welcoming, friendly and a lovely bunch, and the Service Users are lovely too.

SIL seems really good organisation to work for and haven't found anything I dislike, it's all really hands on. I really enjoyed the initial online training and today's face to face medication training was excellent. The trainer Chib was really good and engaging.

Even though I am tired after my shifts I've really enjoyed them and found the job so rewarding. And hey - I do sleep well at night now.
